Subject: Contract No. 08AJ-218  
 Extension Stations Platform Edge Tile Replacement  
 Letter Of Appreciation  
 File 11.2.2 Serial29

DIRECTORS

DAN RICHARD  
 1ST DISTRICT

Dear Mr. Lawrence:

JOEL KELLER  
 2ND DISTRICT

I have been receiving some plaudits lately which I feel a need to pass along to you. You have recently completed the work of an emergency contract for replacing all the platform edge tiles for our five (5) extension stations. The previously installed "Hypalon" tiles were coming up and posed a serious maintenance problem and tripping hazard, and when they were turned over to remove the curling, they no longer satisfied ADA rules.

ROY NAKADEGAWA  
 3RD DISTRICT

MARGARET K. PRYOR  
 4TH DISTRICT

PETER W. SNYDER  
 5TH DISTRICT

THOMAS M. BLALOCK  
 6TH DISTRICT

Now we are in compliance, and both the Maintenance and Transportation Departments are very happy with their new platform edges of Armored Tile by Engineered Plastics; no more trouble tickets, no more patron complaints.

WILLIE B. KENNEDY  
 7TH DISTRICT

JAMES FANG  
 8TH DISTRICT

The installation was done under difficult conditions in that it was done under traffic; trains and passengers were using the same platforms on which the Work was being performed. We felt that Engineered Plastics, Inc. was most cooperative in working with the Inspector/Monitor on-site so that BART's Central Train Control Office would allow this work to be done daytime.

TOM RADULOVICH  
 9TH DISTRICT

We appreciated Engineering Plastics performance on this emergency work. We're happy with the product, and we hope that you will continue to bid on BART Work.

Very truly yours,

James A. Robinson  
 Resident Engineer
