Company: Engineered Plastics, Inc.  
Address: 300 International Dr., Suite 100  
Williamsville, NY 14221

Dear Ron O'Neill,

Reference: Armor-Tile Tactile / Detectable Warning Systems, Ref# 2672

Congratulations! I wish to thank you for submitting your product for inclusion in the Colorado Department of Transportation (CDOT) Approved Product List (APL). Upon review by the CDOT Expert Product Evaluator / subject matter expert of your submitted CDOT Form #595 and all of the supplemental documentation it was determined that this product satisfies the requirements for inclusion in the APL.

There are several things you need to know to work efficiently and accurately within our system.

- First, your product has been assigned a unique APL Reference No. which you need to utilize during any contact or communication with us regarding your product.
- Second, it is essential that you contact us should there be any changes made to your product or documentation as referenced on the CDOT Form #595. We will decide if the change is inconsequential and if it impacts our acceptance.
- Third, your material will be listed on our approved products list (APL) at the following web site: [www.dot.state.co.us/app\\_APL/](http://www.dot.state.co.us/app_APL/). By utilizing *APL Search* your product can be found through four approaches: (1) Category, (2) Manufacturer Name, (3) Product Name, or (4) Product Number.
- Fourth, your product will be removed from the APL if it does not meet the intended purpose for which it was approved or if there is a failure to keep the Product Evaluation Coordinator apprised of all changes, not only to the product but also corporate contact information as listed on the Form #595.

**DISCLAIMER:** The Colorado Department of Transportation (CDOT) does not have the obligation to use any of the products listed in the Approved Products List (APL). The APL simply documents that the listed products have been tested, evaluated, and/or examined under CDOT standards, and were found to be acceptable to be used in CDOT projects. The product shall be removed from the APL if Product Performance comments indicate field performance that is unacceptable to CDOT quality standards or if the product varies from the data as originally submitted. Additional disclaimer information can be found within the APL web site.

We look forward to a mutually beneficial relationship with you and your company. Should you have any questions, please feel free to contact me at (303) 398-6566 or e-mail me at [david.kotzer@dot.state.co.us](mailto:david.kotzer@dot.state.co.us) .

Respectfully yours,

A handwritten signature in blue ink, appearing to read "David Kotzer", with a large, stylized flourish extending from the end of the name.

David Kotzer  
Product Evaluation Coordinator
